

2025 FUTURE FOOD SYSTEM CONFERENCE & SHOW

“Regenerative Food for Future Food System”

Hand in Hand for Future of Food Security and Sustainability
Comprehensive Initiatives and Eco-system Building Platform
with local and International Stakeholders

May 2025

Bangkok, Thailand | www.tastebudlab.com

Organized by

FUTURE
FOOD
NETWORK

WHY FUTURE FOOD?

- Health Sustainability and Climate Protection
- Regionality and Globalization
- Food Production and Food Waste

Because whether we like it or not, food supply and security is a global issue, and one that will only grow in importance.

1.

Future Food System Conference & Show

Powered By Industry Stakeholders

- Tastebud Co., Ltd. is an organization dedicated to promoting sustainable future food. They collaborate with researchers, startups, and SMEs in the FoodTech and Biotech sectors to advance food innovation and establish the Future Food Network, a network of over 10,000 members dedicated to developing a sustainable future food ecosystem.
- Part of the annual **Future Food System Conference & Show 2025** organised by Bio Buddy, Tastebud Lab and Future Food Network.

FUTURE
FOOD
NETWORK

- Future Food System Conference & Show 2025 is an annual event that brings together leading experts, researchers, startups, investors, and entrepreneurs from around the world to drive progress towards a sustainable food future.

Objectives

To empower Thai's Soft power in food sector with innovation and sustainable value, attract international traveler and business travel to Bangkok

To create opportunities for export and import for future of food

To promote and support Thai future food startups and create opportunities for them to expand to the international level

To create a platform for knowledge and experience sharing on future food systems between representatives from the government, private sector, and both domestic and international organizations

To create real business networking opportunities for Thai startups

2.
